

Providing *access through* telepsychiatry partnerships.

Our provider team consists of:
Psychiatrists | Psychiatric Nurse Practitioners | Licensed Clinical Social Workers

With the psychiatric provider shortage, recruiting and retaining psychiatric providers is a challenge.

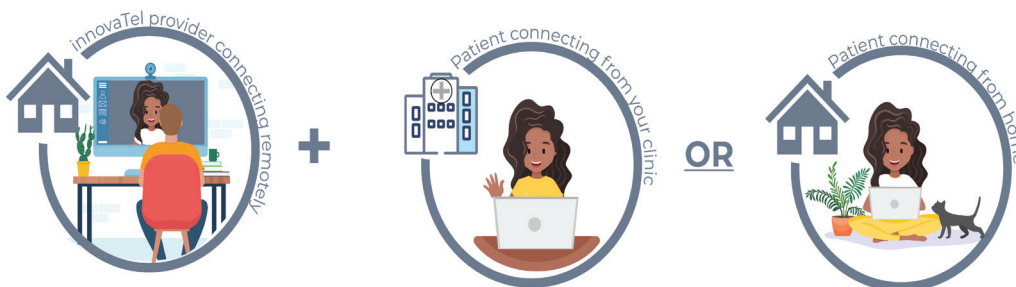

We understand. innovaTel's founders ran a community mental health center prior to starting innovaTel, and this was one of their top challenges, a challenge that they found a solution for with telepsychiatry. innovaTel was founded in 2014 and now provides telepsychiatry services in partnership with community-based organizations across the country.

innovaTel Telepsychiatry specializes in providing support systems customized to meet the unique needs of community behavioral health clinics like yours. We connect you with highly-qualified psychiatrists, psychiatric nurse practitioners & LCSWs of your choosing that seamlessly integrate into your existing workflows.

We're ready to help your organization help your patients.

Telehealth Partnership

That Integrates Into Your Clinic's Workflow

- Share your clinical needs with innovaTel.
- innovaTel presents providers for your team to interview.
- Once your team chooses a provider(s), they become credentialed with your payers and your organization bills for services.
- innovaTel provider(s) holds a set schedule for your patients each week, connect via a HIPAA-compliant telehealth platform and document directly in your EMR.
