

# Add A **Medical Director** Via **Telepsychiatry Partnership**

With the psychiatric provider shortage, innovaTel knows how challenging it can be to find psychiatrists to serve as medical directors.

innovaTel is able to provide remote medical directors, starting at as low as four hours per week that can serve as an integrated member of your clinical team.

## Common Responsibilities & Roles That Our Remote Medical Directors Provide:

### Policies, Procedures, & Quality Improvement:

- Develop or review policies and protocols.
- Quality Improvement, which can include chart reviews of other providers, reviewing clinical practices of providers (especially if a concern is raised).
- Join committee meetings as needed such as Infection Control, Safety, Ethics, etc.
- Staying up-to-date on regulatory changes and best practices of medicine.

### Reimbursement Optimization:

- Work on improving work-flows in the clinic.
- Decreasing no-show rates.
- Supporting providers selection of billing codes.

### Communication & Collaboration:

- Communicate with and collaborate with on-site staff from all departments including front desk staff, nursing, compliance.
- Communicate with and collaborate with all clinical staff including on-site providers and other telemedicine providers.
- Meet with or offer support to therapists and perform case reviews.
