Work Remotely as Part of a Leading, National Telepsychiatry Team

Now Hiring: Full-Time & Part-Time Psychiatrists In Any State

Work as a W2 employee from anywhere in the country while delivering exceptional care. Become an embedded member of a clinical team, with long-term contracts in outpatient mental health centers. And we're always here for you! Get ongoing clinical support from nursing staff and psychiatric peers for the duration of your career with us.

Who We Hire

We look for dedicated providers that are committed to offering the highest quality care. Every provider must:

- Hold an active medical license in any U.S. state
- Reside in the U.S.
- Be able to work at least 16+ hours per week
- Be board certified or board eligible

Clinic Partners

- Certified Community Behavioral Health Clinics
- Community Mental Health Centers
- Substance Use Disorder Treatment Centers
- Federally Qualified Health Centers
- Outpatient Facilities
- Primary & Integrated Care
- Forensic Psychiatry Services

Team Member Benefits

- W2 employment
- Better work-life balance
- Work from home without the need to commute
- No on-calls and no weekends
- Focus on patient care without administrative overhead
- Provide care to underserved areas
- Full-time and part-time opportunities
- Competitive salary
- Complete IT and clinical support provided
- Medical, dental and vision coverage
- 401(k) savings plan with match
- CME funds
- Paid time off
- Malpractice coverage
- Disability, life insurance AD&D coverage
- All necessary technology equipment provided
- Licensing reimbursement
- Paid for no-show appointments
- Team collaboration
- Nursing support on-site provided by clinic partners

“I work for innovaTel because

“innovaTel allows me the opportunity to maintain lasting relationships with the families to whom I provide care. I love when a patient comes back and excitedly reports, after beginning ADHD treatment, they made an A on a test or were recognized for their hard and improved work. Or, the joy in a parent’s voice when they say their child is smiling again after being treated for depression.”

-Dr. McCray Ashby, Child Psychiatrist
