

# A Teletherapy Partnership to fulfill your clinical needs

Grow your clinical team with experienced, remote teletherapists

Your desire to provide care for your patients is unwavering. Your ability to do it, though, is sometimes a challenge. Most of that challenge is tied to access, recruitment and retention of clinicians. We understand the challenges you are facing, and we are here to offer smart, seamless, integrated solutions.

innovaTel's teletherapy partnership is flexible and customizable based on the needs of your patient population. Our clinicians can connect with your patients at your facility or remotely, wherever they are.

## How It Works

- Share your clinical needs with us.
- We present vetted clinicians to your team to interview and choose.
- Once a clinician(s) is selected by your team, then they would become credentialed with your payers and your organization does the billing.
- The clinician(s) hold a set schedule with your organization each

week, connect with your clients through a HIPAA-compliant platform and work directly in your electronic medical record.

## Benefits

- Grow your clinical team with access to a team of highly qualified, remote-based clinicians throughout the country with multiple specialties.
- Reduce wait times for appointments.
- Increase scheduling flexibility.
- Meet the growing demand for behavioral health services.

## Clinical Services

innovaTel's clinicians are highly trained in treating a range of behavioral health conditions and utilize several evidence-based modalities which include but are not limited to:

- Cognitive behavioral therapy (CBT)
- Dialectical behavioral therapy (DBT)
- Motivational interviewing techniques
- Trauma informed therapy

## Therapy Services

- Psychological assessments
- Diagnostic evaluations
- Individual therapy
- Group therapy
- Substance use disorder treatment
- Participation in treatment team meetings
- Care coordination

## Types of Clinicians Available

- LCSW
- LPC
- LMFT
- LCAC/LCADC
