

# Improve Access to Care with innovaTel Telepsychiatry

How remote providers can offer your patients the care they need

innovaTel works with healthcare organizations across the country, offering sustainable and configurable solutions to the most common challenges, including workforce development, increased scheduling flexibility and increased access to behavioral health and substance use disorder providers.

By seamlessly integrating into the workflows of a behavioral health organization, innovaTel fosters clinical partnerships that remove traditional barriers to treatment, improve patient care and improve patient outcomes.

## Integration From Day One

### Meeting your needs

An innovaTel partnership is designed around your needs. Our providers are available part-time or full-time, and

our Clinical Liaisons — experienced psychiatric nurses — guide providers and clinical teams through onboarding while offering ongoing support.

## Our Providers

- Psychiatrists
- Psychiatric Nurse Practitioners
- Licensed Clinical Social Workers

## Psychiatric Services

- Psychiatric evaluations
- Ongoing medication management
- Consultative services
- Remote Medical Director
- Medication-Assisted Treatment (MAT)
- And more

## Therapy Services

- Diagnostic evaluations
- Individual therapy
- Group therapy
- Addictions treatment
- And more

- ✓ 95% provider retention rate
- ✓ Providers experienced in **SMI and co-occurring** patient populations

“Telehealth is here to stay, and organizations are rapidly implementing a hybrid model of healthcare delivery. innovaTel’s support for community behavioral health organizations through development of its hybrid model makes it easier for clinicians to meet local needs and support recovery. Making people and communities healthier is their passion and ours.”

— Chuck Ingoglia, *President and CEO, National Council for Mental Wellbeing*
